Attachments: Dewey Burdock Class III Draft Area Permit_v4_SR12.16.14.docx

For your consideration: attached are the comments I had while going through the CIII permit. The email told me the fact sheet doc was too big so I'm going to try it in a subsequent email or else I will stick a link to an i:Drive location

Hi Douglas and Valois

I'm just getting through the CIII fact sheet and permit with ENF comments.

I don't have all the comments digitally yet and won't until COB Monday (if this is problematic and you need them tomorrow, call my cell in the morning or this evening Ex. 6 Personal Privacy (PP) and I'll log in for a few hours to get them in).

I have it written down from our initial meeting that you were hopeful to have my review in by tomorrow and since I haven't got all the comments in, I figured I'd sum up some of the big ones for you so you'd have an idea of what I came up with. I put the issues I felt to be more major in bold.

Fact Sheet/SOB:

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

For the hydro review (CZA and pits/ponds) - I'll get you an estimated time frame for review once I receive those documents unless you have a specific date you need the review by and then I can do my best to meet that.

Hope you all have a good weekend!!

Sarah

Subject: Dewey Burdock Hydro and Enf Review

Hey Douglas and Valois,

Looking at my schedule, I am trying to work in the Dewey Burdock review as soon as possible so that I am not scrambling coming up to the meeting deadlines when I also have NEPA and Superfund reviews coming due.

To ensure I can meet your review needs (or at least do my best) it would be helpful if I could get the documents as soon as possible. This would include the technical memo (essentially laying out the cza methodology and decision points presented in the PPT and at that meeting), information on the ponds that Lucita mentioned (with information on what hydro question you are looking to have answered regarding them), and the permit and SOB document for the ENF review.

Thanks!

Sarah
